

## Customer Testimonials...

*"...The system developed by Innov8 has been a key enabler in our growth from one to three locations nationwide, and they are ready to help us streamline our fourth plant.*

*...I would highly recommend Innov8's services to anyone who wants to work with a team that is very knowledgeable in their field; truly listens to the customers needs and never pressures you into unnecessary features or expenses. They are competitively priced and I can without a doubt say I have gotten my moneys worth and more..."*

- Jennifer Marin, President  
Endot Industries, Inc.

*"...Innov8 provided us with a real common-sense methodology for modernizing our Progress application.*

*...The emphasis on solid documentation and a 'start today' approach has helped us to start moving in the right direction..."*

- Mary Jo Haynes, Lead Architect  
Encompix, Inc.

*"...The people from Innov8 have been helping us with our business for over 15 years now. Many other vendors have come and gone but they have always been there for us, no matter how many changes we under go ourselves.*

*...Some how when the bill arrives, it's a quarter of what we expected.*

*...We don't have our own computer staff, and if it weren't for Innov8 we would probably have to by now.*

*...We used their Off-Shore resources recently and updated our whole system to enable our next phase of growth. It's all very exciting..."*

- Jacob Gesthalter, President  
Vicor Industries, Inc.

## About Us...

**Innov8 Computer Solutions, LLC** provides premiere business software solutions and consulting services. Through modern tools and superior business skills, we make software work for you, not the other way around.

We are focused on providing customized business oriented solutions to clients through our unique mix of products and services.

## Products...

- Chemical, Flavors & Fragrance, and Process Industries
- Manufacturers & Distributors
- Integrated End-to-End Solution
- Highly Customizable

- Integrated A/P, A/R & G/L
- Multi-Company & Multi-Currency
- "What-If" Analysis
- GAAP

## Methodology...

**Our goal...** is to provide the highest level of customer service while enhancing productivity within their organizations. Each customer is given focused, total and individual care, customized to the nature of their business. The success of your business is the motivation and driving force for our success.

**Our highly experienced and dedicated consulting team...** uses cutting-edge technology to provide a complete turnkey computing solution to your business...from initial conceptualization of the business processes, designing and developing, to successful deployment and implementation.

**We help...** our customers visualize the opportunities within their businesses, develop an actionable software strategy to harness those opportunities, and build competitive solutions to deliver a winning value proposition.

## On-Site To Off-Shore...

Whether on-site at our customers in North America or off-shore at our facilities in India, clients receive the same high quality services.

Our exclusive partnership with **Dip Software Solutions** in India, offers our customers a highly cost effective option to meet their requirements and achieve the business success they forecasted.

A highly structured process coordinates both the on-site and off-shore teams in a 24X7 environment. The resulting productivity enables the completion of small projects to large scale applications **on time** and **under budget**.
